MEDIA RELEASE

THE NATIONAL PADDLERS TO VISIT WOODLANDS GARDEN SCHOOL- MOVEMENT FOR THE INTELLECTUALLY DISABLED (MINDS) AHEAD OF THE WORLD TABLE TENNIS CHAMPIONSHIPS

Ms Ellen Lee, PBM, Member of Parliament for Sembawang (Woodlands) GRC & STTA President together with the national paddlers visit Woodlands Garden School, Movement for the Intellectually Disabled (MINDS) on 23 April 2015.

The Woodlands Garden School- MINDS is a special school where it serves the educational needs of more than 270 children with intellectual disability in the northern part of Singapore.

The MINDS firmly believes that children with intellectual disability possess the capacity to learn and to develop their potential to become contributing members of society.

We hope that through our yearly community visits, our national paddlers can make a difference in these children's lives and encourage them to live better through sports. Besides, these community visits also provide a unique platform for our national paddlers to share their sporting experiences, teach values, shape behaviours and ignite the Singapore Spirit for the upcoming SEA games.

It will be the first time since 1993 that Singapore will host the SEA games and we are confident that our national paddlers will deliver their best standards at the meet and do Singapore proud.
